EDUCATION

California State University of Fullerton   Fullerton, CA
Bachelor of Science in Computer Science   *Aug. 2020 – Present*

EXPERIENCE

Supplemental Instructor   January 2022 – Present
California State University of Fullerton   *Fullerton, CA*
- Provide support for undergraduate students that are struggling in Cal State Fullerton's historically difficult Computer Science courses
- Organize and guide supplemental study sessions based on class lectures where students cooperate to build a better understanding of the material covered in Computer Science courses
- Simplify advanced C++ topics to make it easier to digest for students that are unfamiliar with them

Treasurer for Japanese Anime Club   January 2022 – Present
California State University of Fullerton   *Fullerton, CA*
- Manage the funds of a club with more than 500 members
- Handle the reimbursement process to ensure proper fund transfer from club account to board member's account
- Track and record the purchases of premium club membership
- Lead fundraisers to maintain proper following of procedures regarding California State University of Fullerton's guidelines towards fundraisers

Treasurer for CSUF Bowling Club   December 2020 – April 2022
California State University of Fullerton   *Fullerton, CA*
- Handled funds for the club of 14 members with new members joining every week
- Requested and collected competitive membership dues from the members that bowl competitively at tournaments in order to guarantee participation
- Handled the deposit of funds raised from competitive memberships and fundraisers into the club's financial account
- Organized members into groups that attend games of other sports clubs to increase club rank in order to request more funds from the school
- Attended weekly sports clubs meetings as the club's representative
- Informed president of the weekly news and events that were discussed during the meeting

PROJECTS

Bowling Ball Selector | *C++*   March 2022 – Present
- Developed a small program that recommends a bowling ball for the user to use
- Saves and reads the user's bowling balls from a file

CSUF Food Review App | *Swift*   January 2022 – May 2022
- Developed an iOS application that allows users to leave reviews for places to eat all across the CSUF campus
- Implemented Firebase Online Database to store the information of each food spot on campus
- Used Swift Storyboard to create the UI for the application
- User is able to login or create an account before being able to view the different food spots available

Yu-Gi-Oh-Based Combat Game | *C++*   April 2021 – May 2021
